Your saddlebag supports will install in just a few minutes using common tools. Read all instructions carefully and completely before installing your new saddlebag supports.

1. Remove your stock fender rail bolts on the left side of the motorcycle.
2. Install your Cobra saddlebag support using the supplied button head bolts (where the stock bolts were removed with corresponding M10 and M8 bolt in the proper location front to rear); the saddlebag supports should hang towards the rear and away from the motorcycle.
3. Repeat above steps for right side of motorcycle. Torque bolts to factory specifications.

** Cobra recommends you always wear a helmet while riding. Please never operate your motorcycle while under the influence of alcohol and/or drugs. Enjoy the new look of your motorcycle and please ride safely.*
